Discussion points;

The meeting discussed a number of subjects include feedback from local residents, dog walkers and horse riders on both the proposed Elm Park Development and the plans for M5 junction changes. All the comments have been noted and will be fed into the development of the NDP.

We have made contact with the Gloucestershire Wildlife Trust and we are investigating the possibility of engaging them to complete an Ecological Survey funded via the Parish Council.

It was noted that it was proving challenging to make progress due to a lack of engagement from Tewkesbury Borough Council and Gloucestershire County Council.
